## AMENDMENTS TO THE SPECIFICATION

## IN THE ABSTRACT

Please replace the Abstract with the following amended Abstract:

## (57) ABSTRACT

The invention relates to a method of deactivating the touch screen lock in a portable electronic device comprising a touch screen and means for locking the touch screen. The method comprises detecting (208)-touches on predetermined contact areas on the touch screen in a given order during touch screen lock and deactivating (210)-the touch screen lock once said touches on said predetermined contact areas are detected. The invention also relates to a portable electronic device comprising a touch screen (106)-and means (100, 106, 112)-for locking the touch screen. The device comprises means (100, 106)-for detecting touches on predetermined contact areas on the touch screen in a given order during touch screen lock and deactivating the touch screen lock once said touches on said predetermined contact areas are detected.
